

Last year everything went very well by Shree Mataji's blessings:

- We received additional subsidies from the local government and we used this money to buy a new kitchen, various interesting educational materials and things for the playground.
- All the pre school children got places in nice schools.
- One of the KG child is joining Cabella school.
- We are blessed with 5 permanent teachers and a cook.
- This year is a special year for us because we have more children from non-yogi families than from yogi families for the first time. Our aim is to find a way to meditate in such a way that it appeals to them and that they will enjoy meditating with us.

We see that the non-yogi parents are helping a lot more in the maintenance area which makes us happy. It shows that we were able to convince them of our educational work, which is based on Sahaja Yoga, and that their children enjoy coming to us.

The new academic year started on the 4th of September.

Joy for children' is playing an important role in the process of recognition of Vishwa Nirmala Dharma in Austria.

One inspector from Vienna state and one psychologist came to our Kindergarten during Diwali time and watched our morning meditation and noted many points. They looked happy and found Sahaja Yoga something special. Actually they came to check how Sahaja Yoga meditation is beneficial for younger children. We are hoping for a positive report.

We pray to Shri Mataji for Her blessings and enlightened attention of our yogi brothers and sisters for smooth working of the whole process. Bandhans and prayers are most welcome.

Much love from

Team Joy for Children

Jai Shree Mataji 🙏🌸

A sweet story:

One two year old child from a non yogi background said in the meditation "I am feeling hot not cool." A 3-year old child from a yogi background replied " my coolness will go to you and all your heat will go away" 😊

A humble prayer

Shri Mataji, thank you for always protecting all the children, families and aunties from Vienna Kindergarten Joy for Children. Please establish all the qualities inside us, which are needed to fulfil Your vision for Kindergarten Joy for Children. Please make us humble and joyful so that we can be Your instrument. Thank you for the Love and Unity which we feel amongst each other 🙏

Shri Mataji, by Your grace may this beautiful Kindergarten always stay in Your Divine attention 🙏❤️

Jai Shree Mataji 🙏🌸
